

SOLAR DEPOT

A Company Profile

MARKET POSITION

In business for 30 years, Solar Depot is a wholesale distributor/systems integrator of solar thermal, and solar electric power systems. BP Solar is the largest manufacturer of solar electric panels in the United States. Solar Depot is BP Solar's largest distributor in the country.

EXPERIENCE

Solar Depot has designed and supplied thousands of solar systems for various applications. Our customers include the U.S. Military, the Federal Government, NASA, the States of California, Nevada, Oregon, Washington, and others, Municipal Utilities, as well as, the private sector. The solar electric applications range from residential and commercial utility-connected systems, to stand-alone systems for Wireless Communications, Telecom, Telemetry, UPS Backup Power Systems, Industrial Mining Operations, and many others.

Solar Depot offers our **Sol-Gen®** solar electric generators for **utility-connected** applications. These are complete packaged systems pre-assembled for easy installation. Our team of engineers offers a complete range of energy solutions, from initial consultation and site visits, to custom design and installation. **Solar Depot works with a network of authorized dealers/installers across the country** who have many years of experience in the industry. For 'Turn-key' solutions Solar Depot can easily team up with several of our larger dealer/contractors to offer installed systems.

PRODUCT LINES

Solar Depot offers a wide range of solar electric power systems, and solar thermal products, including solar water heaters, solar space heating systems, solar pool heating systems, and "in-floor" radiant heating systems, with complete design and engineering services.

PROFESSIONAL MEMBERSHIPS

Solar Depot is a proud member of the Home Builders Association HBA, the Association of Pool and Spa Professionals (APSP), The American Solar Energy Society (ASES), the Solar Electric Power Association (SEPA), and the California Solar Energy Industry Association (CALSEIA). Solar Depot's President serves on the CALSEIA Board of Directors.

FACILITIES

Solar Depot's Corporate Headquarters is located in Petaluma, California. Our staff includes a team of engineers and technicians with years of experience in system design, integration, installation and diagnostics. Solar Depot operates two branch facilities in Sacramento, and Corona in Southern California. With the emphasis on quality control, our shipping and receiving facilities are thorough, efficient, and detail-oriented. Solar Depot maintains a large inventory and in most cases is prepared to ship orders within 24-48 hours.
